Questions/Responses No. 1 to the

Request for Proposals (RFP)

District Court Rockville Digital Video Recorder System

K18-0075-84F

Ladies and Gentlemen:

The following questions for the above referenced RFP were received by the procurement officer and are answered and posted for all prospective Offerors. The statements and interpretations contained in the following responses to questions are not binding on the Maryland Judiciary unless the RFP is expressly amended. Nothing in the Maryland Judiciary's response to these questions is to be construed as agreement to or acceptance by the Maryland Judiciary of any statement or interpretation on the part of the Offeror asking the question.

1) Question: What is the current version of the Milestone XProtect Software?

Response: Milestone Enterprise v7 software

2) Question: Will you be providing us with the current asbuilts of the existing system?

Response: We will provide the drawings we have for the system.

3) Question: Will the list of cameras to be repaired be provided which were discussed during the walkthrough/prebid?

Response: Yes

4) Question: Will the list of cameras to be replaced be updated, I believe there was one location that needed to be added based on the conversations yesterday at the walkthrough?

Response: All of the locations will be addressed.

5) Question: Will the site confirm the current specs of the existing server in order to determine if they meet the current manufacturer's specification for the software upgrade to the most current version of Milestone?

Response: Yes

6) Question: Are the existing HP switches POE?

Response: Cannot confirm this.

7) Question: Does the site prefer to keep the network switches all the same, meaning, since we are adding more cameras, it was noticed that the HP switches did not have sufficient space for the additional cameras; Are there specific instructions on the type of network switch for standardization purposes? 8 port/12 port/24 port? HP? Cisco?

Response: There is no specific requirement for standardization of network switches.

8) Question: Please confirm that this RFP does not include the task of relocating any of the cameras in the detention center?

Response: No cameras will be relocated; camera angles may be adjusted/changed.

9) Question: During the walkthrough, it was noticed that the Altronix power supplies located in the telecom closet did not have functioning power supply boards. Can you explain if this was disconnected intentionally? Is the site requesting that a new Server be provided as part of the upgrade/repairs?

Response: Answer: We are not requesting one, but if a new server is required, please account for it in your proposal

10) Question: Is the site requesting that a new workstation be provided as part of the upgrade/repairs?

Response: The site is not requesting a new workstation.

Date Issued: May 4, 2018
